Why Study the Old Testament?

- Because 2/3 of our Bible is in the OT.
- Because the NT can only be fully understood against the background of the OT.
- Because the Bible of the New Testament writers was the Old Testament. These writers often quote from the Old Testament, and they assume that you are familiar with its characters and content.
- Because the same God is the author of both Testaments. You cannot know well the character of God unless you study the OT.
- Because many Old Testament prophecies are fulfilled in the New Testament (and many are not!)

Why do Christians Today Need to Study the Old Testament

- Because when you read the Gospels you are reading about events that took place under an Old Testament economy.
- Because many of the Old Testament's teachings are timeless principles.
- Because not everything is restated and reapplied in the New Testament.
- Because two basic yet essential themes of the Bible begin in the Old Testament:
 - Covenant
 - Kingdom

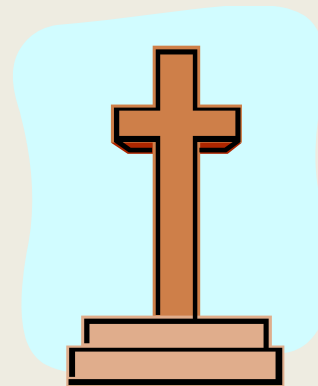

The Old Testament & The New Testament

- The NT is in the OT concealed
- The OT is in the NT revealed
- The OT contains Christ implicitly
- The NT contains Christ explicitly
- The moral precepts in the OT are brought to perfection by Christ in the NT
- The ritualistic precepts in the OT are brought to completion by Christ in the NT
